SUMMARY

I am Computer Science student with a strong foundation in front-end development. Proficient in JavaScript, HTML, CSS, and React, with hands-on experience creating responsive web applications and a commitment to continuous learning and professional growth.

SKILLS

Technology & Tools: React.js, React Hooks, React Router, Context API, HTML5 & CSS3, Tailwind CSS, Node.js, Git & GitHub, javascript,

PROJECTS

Book Store (Library)

github.com/alispatel111/Book_Store

- **Components:** Created various components such as a book list, book details, search bar, contact and Courses.
- **Routing:** Implemented React Router for navigation between different pages (e.g., home, book details, course).
- **Authentication:** Implemented user authentication, possibly using JWT (JSON Web Tokens) for secure access.
- **Responsive Design:** Ensured that the application is responsive and works well on different devices and screen sizes.
- **Frontend-Backend Communication:** Used Axios or Fetch API to connect the frontend with backend services.
- **Note:** It's a properly working project.

YouTube Clone

github.com/alispatel111/Yt-Clone

- **Implementation:** Use react-router-dom to handle navigation between different pages (home, video page, search results).
- **API Integration:** Use axios or fetch to retrieve video data from your backend or a mock API.
- **Video Data:** Include details like video title, description, views, and upload date.
- **Build Components:** Home page, Navbar, Sidebar, Search bar, Video card.
- **Note:** It's a properly working project.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Parul university · Vadodara (Gujarat) · 2025 · 7.00

CERTIFICATIONS

React Js

Infosys Springboard · 2024
